

Planmeca PlanScan®

The ultimate scanning experience

Now
connected to
your Planmeca
dental unit

The world's first unit integrated intraoral scanner

Planmeca is proud to introduce **Planmeca PlanScan**® – the world's first dental unit integrated intraoral scanner. This unique integration guarantees a smooth workflow, as real-time scanning data is now immediately available from your chairside tablet.

Dental unit integrated intraoral scanner

The ultra-fast and accurate **Planmeca PlanScan**® can now be easily integrated into your digital Planmeca dental unit. Thanks to the new chairside integrated Full HD tablet device, you have constant and optimal access to live scanning data. This allows you to focus on clinical work in the treatment area without any distractions.

For an even smoother workflow, scanning can also be controlled from the dental unit's wireless foot control. In addition, the scanner provides practical sound guidance to ensure optimal data capture.

Unique foot controlled scanning

What really sets Planmeca PlanScan apart from other scanners is that now you can also conveniently control its use from the dental unit's foot control, leaving your hands free for scanning and patient treatment at all times. You can use the foot control to easily toggle between prep, opposing and buccal views, so that you can focus on scanning without interruptions. Hands-free operation also guarantees impeccable infection control.

Easy and flexible use

Planmeca PlanScan has been designed for an efficient workflow – it is used just like any other instrument and shared effortlessly between different users. The plug-and-play scanner can also be easily installed in different dental units and different rooms. The flexible licensing system allows simultaneous use on multiple workstations during different CAD/CAM workflow steps.

Use the scanner just like any other instrument

Discover the unparalleled benefits of integrated Planmeca PlanScan®:

- Smooth and effortless workflow lets you concentrate on your patient
- Constant access to real-time scanning data
- Hands-free operation with wireless foot control
- Plug-and-play scanner with sound guidance
- Can be upgraded to any Planmeca dental unit
- Can be shared between different operatories
- Intelligent **Planmeca Romexis®** software licensing – different work phases (scan, design and manufacture) can be performed simultaneously by different users

Planmeca PlanScan® as a part of the open Planmeca CAD/CAM™ Chairside workflow
